

Dr. Ohhira's® Premium Collagen Plus™

Renew your body
to a more youthful state*

Health from the Inside Out

Skin looks its most youthful when it's hydrated and resilient, thanks to moisture and collagen.

Collagen plays a vital role in keeping both your skin and body healthy and supple, as it is the most abundant protein in the body and a major building block of bones, skin, muscles and tendons. It has even been referred to as the 'glue' that holds everything together!

While collagen is imperative to skin structure and elasticity, collagen supplements alone can be an ineffective way to improve your skin's health, as the collagen must be bioavailable to actively affect your body. Dr. Ohhira's® exclusive formula combines premium collagen ingredients, a blend of fermented food probiotic extract, amino acids, select botanicals and health-promoting nutrients to assist the body's absorption of collagen.*

Rejuvenate & Revitalize

Our body's delicate skin and overstressed joints are constantly affected by factors such as stress, the passage of time, and lifestyle choices, but fortunately our skin and joints can be healthfully supported. Did you know that the right skin care supplement may help your body regenerate its optimal function and youthfulness?*

The restorative nutrients we choose to put into our bodies are just as important as the products we put on. Dr. Ohhira's® Premium Collagen Plus™ is a mindfully crafted, distinctive water-soluble supplement designed to replenish the suppleness of your skin and boost the performance of your joints.* This specialized formula contains hand-selected ingredients from the purest sources to provide you with optimal and visible results.

Extensive Research. Hand-selected

Using only the highest quality from the purest sources, this multi-faceted supplement contains both botanical ingredients and the specific amino acids that act as the building blocks necessary for synthesizing collagen to enhance absorption for maximum effect:*

- Premium, low molecular weight **Marine Collagen** peptides and tripeptides, which are more readily and efficiently absorbed by the body*
- **Blueberries** as super anti-oxidants to support overall health and support tissue structure and strength*
- **Cherry Blossom** extract to support healthy inflammatory response and skin tone*
- **Royal Jelly** to enhance collagen production and encourage the stronger development of collagen fibrils*
- **Ceramides** to help prevent the breakdown of collagen and protect critical hydration levels*
- **Vitamin C** is vital to ensure a stronger collagen matrix internally*
- **Co-enzyme Q-10** to fight free radicals that can damage developing collagen tissues plus help support daily energy levels and youthfulness*
- **Hyaluronic Acid** for retaining moisture and anti-oxidant activity*
